---

## Projects

**Language Translator App** | Language Translator App ([link](#)) December 2022 - January 2023

*Features:*

- Translate Your text in any language and in this App you also upload text document format like txt, msword, pdf to convert text.
- You can use this application on Mobile and Tabs also.
- Responsive.

*Tech Stack:*

- HTML, CSS, JavaScript API

*Contribution:*

- Front-end use toggle bar to use light and dark theme, developed this project and deployed.
- From google translate api manage to show data according to input.

**Scientific calculator App** | Scientific calculator ([link](#)) December 2022 - January 2023

*Features:*

- calculate scientifically operation in this calculator including sin, tan value or any power value.
- You can use this application on Mobile and Tabs also.
- Responsive

*Tech Stack:*

- HTML, CSS, JavaScript

*Contribution:*

- Front-end I developed and deployed
- From scratch to end Deployment I completed the project using math inbuilt function.

*Features:*

- It is a fully Responsive photography website.
- This is Website used to display collection of photographs.
- Interesting thing in that is, whenever you reload the page the images will changes every time.
- Try to make css part more attractive and user see different images every category.

*Tech Stack:*

- HTML ,CSS

*Contribution:*

- In my photography website i used unsplash images url which given really awesome images of every category when refresh page.

**Spotter Navigation App** | College Project

September 2016 - June 2017

*Features:*

- A map based app which works with google map api and mobile cell tower to show all the places near by 15 km as online and offline both.
- In this project we used xampp server to store the maps data from google api when user connected to internet and show them as user required.
- create custom ui for our app in android studio.

*Tech Stack:*

- Android Studio, Xampp Server, Google Map Api

*Contribution:*

- The entire app build in android studio with each software development cycle tooks a lot of time to finish.

---
